

Activity one: from hen to shop

A farm collects 2,400 eggs in a morning.

How many boxes of 6 eggs can be made?

How many boxes of 12 eggs?

A delivery lorry can carry 500 boxes.

If each box contains 6 eggs, how many eggs are on the lorry?

If each box contains 12 eggs, how many eggs are on the lorry?

Challenge:

If 120 eggs are cracked on arrival, how many eggs are left to sell from the 2,400 collected?
